

Verity Network Solutions

The benefit of choice.

Verity brings self-funded small-, medium, and large-group employers highly valued provider networks rooting in quality, honesty, and integrity. Verity is a state-wide high-value provider network. Verity First Choice adds an option supporting network tiers and more strategic benefit offerings.

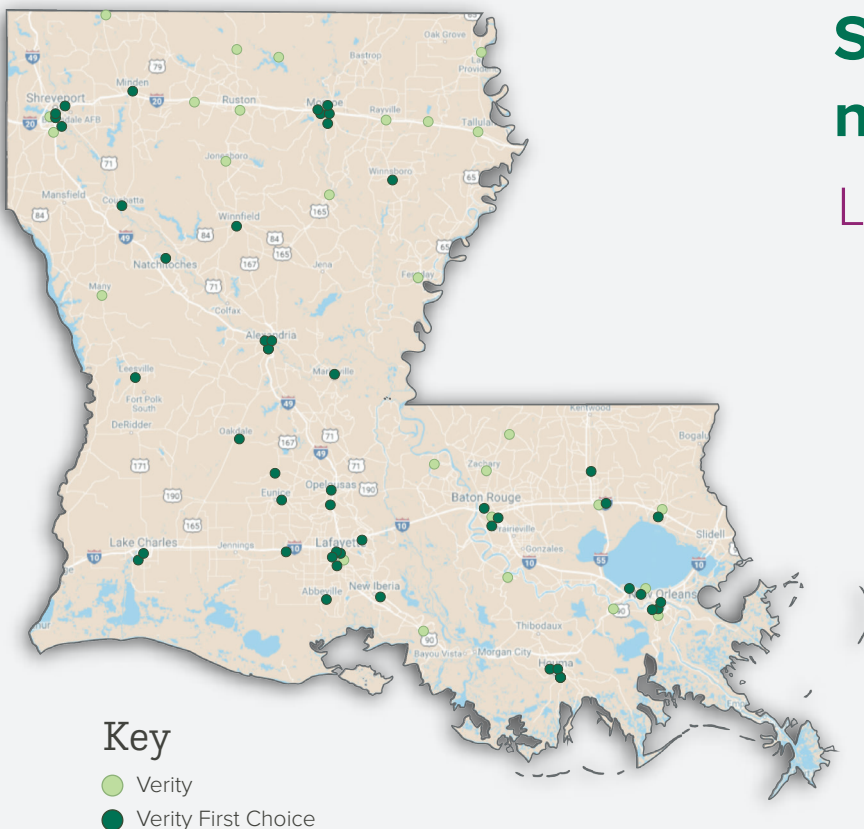

Covered employees and their dependents have a choice in benefit plans, allowing them to decide what works best for their overall health and finances. With choice, employees are empowered to make the decision that's right for them and become more engaged in their health care access

Employers expand choice for their employees within a provider network focused on quality, efficiencies, and plan alignment. Through strategic benefit design health care costs are contained, delivering savings for your members and your business.

HOW IT WORKS.

Based on a company's health plan strategies, employers now have flexibility when using high-value network solutions with benefit options designed around benefit tiering. Based on the plan design, members can be effectively steered to maximize engagement, outcomes, satisfaction, and cost savings. Verity provides members with access to a well-respected network of providers across the state. Verity First Choice is a focused network option that fits well in a plan designed to steer members to select providers.

SAMPLE BENEFIT DESIGN

TIER 1: VERITY FIRST CHOICE

High-value focused network, with little or no Out-of-Pocket benefit to promote member steerage.

TIER 2: VERITY

Louisiana-based broader network of providers. Members benefit through additional provider access; employers and health plans benefit through additional high-value providers

TIER 3: NATIONAL NETWORK

Verity works with multiple payers and national networks. National wrap networks can be accessed side-by-side in Louisiana-or only outside of Louisiana-depending on the benefit design of the plan.
